

Career Pathways

We're changing the narrative through the power of storytelling.

Stories may be the best way to prepare young minds for the future. From hands-on learning opportunities to workforce development, Mosaic Education gives students new ways to engage, innovate, and make an impact in an increasingly digital world—all through the power of storytelling.

Discovery & Exploration

Middle School, Grades 6th - 8th

Discovering Digital Storytelling

Students are introduced to digital storytelling, focusing on media literacy, creating digital narratives, and basic content creation skills.

Exploring Digital Storytelling

Students delve deeper into digital storytelling, exploring emerging/creative career pathways with hands-on learning opportunities.

Career Preparedness & Community Engagement

High School, Grades 9th - 12th

Summer Digital Media Project

Offers a paid immersive experience enabling students to collaboratively design and initiate an integrated digital media project.

Youth Apprenticeship

An innovative career development initiative. Working with community partners and area employers to create unique opportunities for career exploration.

Mosaic Alumni

Alumni are given opportunities to return as mentors, Mosaic Education teaching artists, and contract workers. Taking what they've learned and putting it into action.

Education is part of everything we do at the Mosaic Film Experience.

Our goal is to inspire students by creating spaces to experience storytelling through creativity and technology.

Mosaic Event: The annual event immerses teachers and students in a day filled with speakers and workshops, inspiring exploration of creative careers in digital technology and media.

Mosaic Mobile: A short film contest that initiates meaningful dialogue among young people—arts with impact through storytelling.

Youth Advisory Council: The student voice of the Mosaic Film Experience bringing their point of view to the annual event and other MFE programming.

Inviting our community to join students and share in the joy of storytelling.

Mosaic Community Projects: We are passionate about fostering connections and sparking creativity and we offer students paid opportunities to do both alongside community partners.

Mosaic Community Events: Engaging guest speakers, thought-provoking film screenings, and experiences that celebrate the boundless potential of storytelling.
